

Articulating Arms

Sciencescope™ articulating arms are designed with mobility and space reduction in mind. The NEW HX Arm Hydraulic arm allows for easy vertical movements of up to 20" and comes standard with a 76mm or a 5/8" mounting dowel for focus mounts. The SB-FX-01 provides up to 3' of coverage and 14" of vertical movement and has a 5/8" mounting dowel for focus mounts below.

SB-14-20F

Focus Mounts	
SB-AB-SZ	76mm E-Arm, rack and pinion with adjustable tension control. Fits SSZ and FS Series microscopes
SB-ABF-SZ	76mm E-Arm with fine focus, rack and pinion with adjustable tension control. Fits SSZ and FS Series microscopes
SB-AB-MZ	32mm E-Arm, rack and pinion with adjustable tension control. Fits Micro Zoom Lens
SB-ABF-MZ	32mm E-Arm with fine focus, rack and pinion with adjustable tension control. Fits Micro Zoom Lens
SB-AB-BL	E-Arm for Bausch & Lomb microscopes
SB-SZ-FR	76mm Through Hole Focus Rack for 32mm arbors
SB-SZ-V1	NO-TILT arbor, 32mm, 7" in length
SB-SZ-V2	TILTABLE arbor, 32mm, 7" in length
SB-14-20	CCD mounting plate, attaches to CCD cameras via 1/4" -20 screw. Used with Macro Zoom Lens
SB-14-20F	CCD mounting plate with focus, attaches to CCD cameras via 1/4" -20 screw. Used with Macro Zoom Lens
